Description

Small on size. Big on brawn. The Mini Wagon is the perfect companion for weekend road trips or daily small business hauling needs. It's just four feet wide and six feet long, but don't let the small size fool you. It has all the same tough construction you'll find in our bigger commercial grade trailers. Designed to fit comfortably behind todays popular Minivans and SUV's, the Mini Wagon's compact size and low profile deliver unparalleled towability. You'll hardly notice it's behind you, except for the look of envy from passersby. To top things off, the Mini Wagon features a high impact thermo-polymer roof. In the case of a Wells Cargo Mini Wagon . . . ""Good things do come in small packages!""

-- Specifications --
